Re: Annual Progress Reports: Sahara Mine. ACT/015/026:
Repete Mine. ACT/037/038: Hillside Mine. ACT.037/01:
Straight Creek Mine. ACT/017/018

Dear Mr. Braxton:

Pursuant to previous understanding and past reporting methods, this letter is submitted in lieu of MR Form 3, and conveys to you that none of these operations were active during 1985. No production or reclamation has occurred at the Sahara, Repete, or Straight Creek Mines since the filing of the last annual reports.

As your office is aware, Energy Fuels Nuclear, Inc. has relinquished all rights to the Hillside Mine to Monticello Mining and Minerals. We no longer have legal right to enter the mine property and have no current information as to the status of the mine site and are not aware of any reclamation activity or production from the mine.

Please contact me if you need additional information.

Very truly yours,

H. R. Roberts
Senior Project Engineer
